

IN THE CLAIMS

Please cancel claims 1-6 and add new claims 7-12 as follows:

1-6. Cancelled

7. (New) A turbine power plant comprising:

a common base for mounting thereon power generation apparatuses, said common base being constructed so as to be used as a part of a transportation vehicle and a support frame for installation of said power generation apparatuses; and

a height-adjusting apparatus for supporting said common base and adjusting the height of said common base mounting thereon said power generation apparatuses.

8. (New) A turbine power plant according to claim 7, wherein said height-adjusting apparatus forms a space for maintenance operation under said common base by raising said common base mounting thereon said power generation apparatuses.

9. (New) A turbine power plant according to claim 7, wherein said height-adjusting apparatus is composed of landing gears.

10. (New) A turbine power plant according to claim 7, wherein said height-adjusting apparatus for adjusting the

height of said common base is constructed to be used as a jack for installation of said common base.

11. (New) A turbine power plant according to claim 7, wherein said common base is provided with a lengthwise sliding mechanism for moving said power generation apparatuses mounted on said common base in a length direction of said common base.

12. (New) A turbine power plant according to claim 7, wherein said common base is provided with a width-wise sliding mechanism for moving said power generation apparatuses mounted on said common base in a width direction of said common base from a side position along the length direction of said common base.
